ABOUT ME

I'm a Full Stack Web Developer with a strong foundation in data analysis and a passion for building scalable, user-focused web applications. With a background in turning complex datasets into actionable insights, I bring a data-driven mindset to every stage of development—from designing responsive front-end interfaces to optimizing back-end performance. My journey into tech was fueled by a desire to not just interpret data, but to create the tools that harness its full potential.

WORK EXPERIENCE

100devs

City: Los Angeles, CA | **Country:** United States

[01/2025 – Current]   **Software engineer**

- **Collaborated with a team of developers** to build modern and responsive web applications using best practices.
- **Built semantically structured full stack web applications** to ensure maintainability and scalability.
- **Applied agile methodologies like SCRUM** to manage projects efficiently and deliver iterative results.

Freelancer

Country: Egypt

[10/2023 – 01/2025]   **Software engineer**

- **Collaborated with clients** to gather requirements, define project scope, and manage timelines effectively.
- **Developed and deployed** full stack web applications, handling both front-end and back-end tasks.
- **Tested, optimized, and maintained** websites and applications to ensure performance, security, and scalability.

Proper Bussniess Solutions

City: Cairo | **Country:** Egypt

[08/2021 – 10/2023]   **Data Analysis Specialist**

- **Collected, cleaned, and analyzed large datasets** to uncover trends and drive data-informed decision-making.
- **Developed interactive dashboards and reports** using tools like Excel, Tableau, or Power BI to visualize key insights.
- **Collaborated with cross-functional teams** to translate business needs into actionable data solutions and strategies.

PROJECTS

Hip Coffee Co (Full Stack Web App)

Built a coffee ordering system where cashiers can take customer orders with names. Baristas can log in to view and complete incoming orders. Completed orders are marked with the name of the barista who fulfilled them.

Happy Notes (Full Stack Web App)

Developed a personal note-taking app where users can log in to view, add, edit, and delete notes within their profile.

100 Hours Project

-

Others

- **Small Lakes Casino Virtual Slot Machine.**
- **Los Angeles StarGazers Society APOD Web App** (NASA API Integration).
- **On-Demand Background Color Changer** for a partnered Twitch streamer.
- Plus several more personal and freelance web applications.

SKILLS

Technical Skills

HTML | CSS | JavaScript | React | React Native | MongoDB | PostgreSQL | Electron | Node | OOP | Web Accessibility

Soft Skills

Problem Solving | Effective Communication | Time Management | Teamwork | Agile Methodologies

EDUCATION AND TRAINING

[2011 – 2015] **B.Sc of science From Physics Department With a Very Good Grade.**

Faculty of science Mansoura University   http:// scifac.mans.edu.eg/en

City: Mansoura | **Country:** Egypt |
